Profile

I'm a third-year Computer Science & Engineering student with a strong interest in building modern web applications, mastering frontend frameworks, and exploring emerging technologies. I enjoy transforming ideas into clean, responsive interfaces and continuously strive to refine my skills through hands-on experience. My goal is to contribute meaningfully to impactful software projects that solve real-world problems.

Work Experience / Internships

Agnirath Aerospace and Defence Research Pvt. Ltd.
(Intern) present

- **Project** – Rover Drone Development

Future (Intern) Full Stack Web Development present

- **Project** – 1) Making E-Commerce Website
2) Making a clone website of a well-known Company
